NMACC Networking Day!

Twice a year, NMACC offers members and guests the opportunity to connect one-on-one. According to our mission: "NMACC is a non-profit organization dedicated to promoting the concept that continuity of care is an essential component of the health care delivery system." Continuity of care may not depend on interpersonal connections with others in our field, but it can certainly be enhanced and even enriched by those relationships. That's why we place such importance and have the resulting robust turnout at these particular meetings. Ultimately, it's what you know and who you know.

It's been an interesting 60-day session this year, all wrapping up at noon on March 21. With the House in control of by the Republicans and the Senate the Democrats, it's hard to know what's been accomplished - and what's "died" in committee.

Hundreds of bills await some sort of action in the last few days. Joie promises to give a summary of what bills passed and what bills didn't, and how they affect the seniors in our care.

Don't miss this yearly wrap-up by the Executive Director of the [New Mexico Association for Home and Hospice Care](#).
